## REVENGE OF THE SITH

Press middle of ON/OFF button to power on/power off

Open battery door with a screw driver.  
Insert 4 new AA/R6P batteries following polarity indicated & close battery door.  
Alkaline batteries are recommended.  
Batteries should be replaced by an adult.

If you experience screen problems such as ghosting or fading, batteries may need to be changed.

If you experience further difficulties, restart the controller by powering OFF then ON again.

When operating in environments that are subject to electrostatic discharges the game may malfunction and scores may be lost. If this occurs, the user should reset the game by using the on/off switch.

### WARNING

- do not mix old and new batteries
- do not use rechargeable batteries
- never mix alkaline, standard (Carbon-Zinc) and rechargeable (Nickel-Cadmium) batteries
- only batteries of the same or equivalent type as recommended are to be used
- batteries are to be inserted with correct polarity
- exhausted batteries are to be removed from the toys
- the supply terminals are not to be short-circuited
- different types of batteries or new and used batteries are not to be mixed
- non-rechargeable batteries are not to be recharged

### INSTALLATION

1. Install batteries
2. Connect the TV Game unit to TV or VCR. Plug the yellow input into Video IN yellow port & the white input into Audio IN white port on your TV or VCR.
3. Turn on the TV Game unit. Turn on TV and/or VCR and select the appropriate "Line-in" source. Refer to your TV/VCR manual for more information. If your TV does not have Audio or Video input but has a SCART socket, you will need to purchase a AV/SCART adapter from most major electronic stores to operate this product
